

Hopefully the prices we can offer will whet your appetite and get your creative juices flowing. We would welcome any questions or requests for quotes and samples. If you would like to visit us please call to arrange a time when we can show you our printing and finishing equipment.

If you have any requirement for design and artwork services we will be more than happy to discuss your requirements with our in-house design team.

We have over 15 years of reprographics & print experience here at GrafX, if there is any aspect of design & publishing you need assistance with, including colour management, PDF creation and certification, film reproduction and scanning we would be able to help you with the knowledge that gained GrafX the status of Apple Solutions Expert for the Print & Publishing Industry.

We look forward to working with you soon.

Business Cards

When it comes to introducing your business, make sure the first impression given is one of quality. The business cards Grafx produce are on a Xerox Colortech+ 350gsm board, we are able to match specified colour values to your own requirements, ensuring you achieve the right results every time.

Stationery

Grafx offers you and your business a wide variety of help. Whether you have recently re-located or require a new look image. Excellent quality and speed giving you and your company the best image possible is Grafx main goal. Our Stationery is produced on Mondi 100 / 120 gsm digital stock, allowing quality print through your own Laser printers.

Brochures

Explaining your companys functions and activities is no easy task. Creating brochures, giving up to date information on the services and current offers your company can provide is an ongoing project. Considering digital print gives you the creative freedom to produce as many brochures as you currently need and keep them fresh by updating the information regularly.

Posters

Colourful, vibrant, impact grabbing posters can get your message across to the mass market in a very easy cost effective manner. Printing on a variety of stocks we can produce your ideas in sizes up to A1.

Flyers

If you have an event coming up find out about our great value flyers. Distribute fantastic quality flyers giving all the information needed about your venue and timings. As we can print up to 350gsm consider us to produce your invite cards or even tickets too.

Xerox DC242

Incorporating the latest Xerox technology, our Digital Print on Demand service is second to none. We control the colour quality via the Splash RPX ii RIP giving the best match to corporate colours and Pantone specified breakdowns. No films or printing plates are required.
